COMPANY PROFILE 公司简介

Guangzhou Singpok Construction Material Co., Ltd, founded in 2011, is an integrated industry and trade enterprise dedicated to the promotion, design, sales, and service of eco-friendly building materials.

The company's main products are plastic-wood profile products, ranging from outdoor and interior decoration wall panels and fences, and from railings to other structural profiles, which are used in various garden and landscape engineering construction; there are also wall panels, ceilings, and grilles for interior decoration.

Our company has two production bases, Xinhua, Hunan, which mainly produces WPC, and Foshan, Guangdong, which mainly produces wood-plastic panels. The two bases continue to develop various products, and currently have over 100 WPC wood-plastic production lines and more than 100 sets of molds, with an annual output of more than 100,000 tons of WPC profiles.

We adhere to the business philosophy of customer first and dedicated service, and strive to create greater value for our customers and become bigger and stronger. After years of hard work, we have established good cooperative relations with large real estate companies such as Agile Property Holdings Limited, Star River Group Limited, Evergrande Group, R&F Properties, Country Garden Holdings Company Limited, and so on. The company became a member of the Guangzhou Real Estate Trade Association and Guangzhou Real Estate Society in 2017, and joined the Yangcheng Design Alliance in 2019. We look forward to working with you to create a better future!
